

# **SAFETY & ACCESSIBILITY GUIDE**

**FOR MORE INFORMATION PLEASE VISIT OUR FRONT DESK**

## **INTRODUCTION:**

We are thrilled you have chosen to spend your day at Six Flags! Our goal is to make your visit fun and memorable. This Six Flags Guest Safety and Accessibility Guide includes important information to assist Guests with planning their visit to the park and enjoy its various attractions, rides, services and amenities. In this Guide, Guests will find specific information for individuals with disabilities along with general policies and guidelines.

We work closely with the manufacturer of each of our rides and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans With Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe, comfortable and convenient experience at the park. If, at any time, Guests need additional assistance or a further explanation of our policies and guidelines, they should feel free to ask any Six Flags Team Member.

Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities. This Guide, along with the availability of our Team Members to answer any questions and offer assistance, will allow Guests to have a thrilling and safe day at the park.

## **GENERAL WARNING:**

We are committed to providing you a safe environment during your visit to Six Flags. While there are inherent risks to participating in any amusement park ride or attraction, our goal is to ensure your safety with the incorporation of some restrictions. For your safety, you should be in good health to ride. Only you know your physical conditions or limitations.

Many park rides/attractions incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. Ride and ride vehicle design may restrict larger guests from participating in the attraction. Extremely large or small individuals, Guests who have heart, back or neck trouble or conditions, pregnant women, people who have had recent surgery or an illness, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by certain ride systems. For example, height requirements are based on the size needed for safety restraints to function properly and the level of maturity usually associated with a certain height.

If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**. The specific features, rider requirements and health restrictions of each ride are described later in this Guide.

In order to ride, Guest must possess the physical and cognitive abilities to hold themselves in the proper ride position throughout the course of the ride. Six Flags reserves the right to make the final determination regarding eligibility of a Guest to ride a particular ride based on the Guest's size, weight, height or other limitations. Information in this Guide is subject to change.

## **RIDER RESPONSIBILITY:**

All Guests have a duty to exercise good judgment and act in a responsible manner while participating on a ride or attraction and to obey all verbal and written warnings and instructions. Guests also have a duty to properly use all ride/attraction safety equipment provided.

## **PARKING:**

Accessible parking is available on a first-come, first-serve basis within the main parking lots of the hotel. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the main entrance to the hotel. Please ask a Team Member for directions to additional parking areas.

## **WHEELCHAIRS AND ELECTRIC CONVENIENCE VEHICLES (ECV'S):**

Guests may also use their own wheelchairs or electric convenience vehicles (ECV's). Battery recharging is also available in the lobby.

Guests using wheelchairs or ECV's may utilize any door to enter the park. Many of the hotel's shopping and dining facilities are also wheelchair accessible. All Pools are accessible to Guests using manual wheelchairs. Please keep in mind that there are specific

boarding requirements and accommodations for those using wheelchairs at each ride or attraction.

### **SEGWAY:**

Due to varying walkways, terrains and large crowds, we cannot permit the use of two-wheeled, self-balancing electric vehicles such as Segways.

### **SERVICE ANIMALS:**

Trained service animals are welcome at our Six Flags Parks. Service animals are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with mental illness to take prescribed medications, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals. Miniature horses that have been individually trained to do or perform tasks for people with disabilities will qualify as service animals.

Service animals must be house broken and remain on a leash or harness and under the control of their handler at all times. Owners are responsible for disposing of their animal's waste. Guests whose service animal demonstrates aggressive and/or annoying actions toward a Guest or Team Member will be directed to remove the animal from the park.

Service animals are welcome in most locations of the hotel. Our rides/attractions and pools are not equipped, or designed for, accessibility to service animals. Therefore, a member of your party must be available to stay with the animal while you ride.

### **RESTROOMS:**

Restrooms within the park are accessible for Guests using wheelchairs. The park's Team Members or Front Desk can provide location directions should you need companion restrooms during your visit.

### **Ride and Attraction ACCESS:**

Most of the park's attractions, restaurant, and shops are accessible to wheelchairs. Most, if not all rides require climbing of steps and the transfer to the ride seat.

Entry, Exit and Transfer must be accomplished independently by the Guest or with the assistance of a member from his/her party. Six Flags Team Members are not trained in lifting or carrying persons with disabilities and are therefore not permitted to assist Guests on or off the rides. If in doubt, please contact the Ride Attendant or Front Desk for more information.

### **MEDICAL DEVICES AND MOBILITY AIDES:**

For your safety and the safety of others, riders may be required to remove medical devices, half or full length orthotics, braces, crutches, canes, prosthetics and any other type of medical assistance device that is not permanently affixed to the rider's body to prevent hazards or loss due to ride forces. These devices may prevent safety restraints from working as designed, keep the rider from maintaining the proper riding posture, and present a hazard to the rider or others. If in doubt about your ability to safely experience a ride or attraction, please refer to the Rider Requirement Sign at the ride entrance. You may also consult with a Ride Attendant or Front Desk for more information.

Please also refer to the "Ride Information" section of this Guide for specific information regarding removal of medical devices and mobility aides on a ride by ride basis. If you have any questions, please ask a Ride Attendant or visit the Front Desk.

### **LARGER FRAMED GUESTS:**

Many rides/attractions are designed by the manufacturer to accommodate people of average physical stature and body proportion. The design of the ride may place restrictions on the ability of an individual to safely experience the ride

Guests of a larger size may not be accommodated on some rides.

## RIDE RATINGS AND WARNINGS:
